## EDUCATION

---

### Scope & Junior College

Science 12th

Jath, Maharashtra

June 2020 - March 2022

### Fabtech Technical Campus

Computer Science & Engineering BTech

Solapur , Maharashtra

Nov 2022 - July @026

## SKILLS

---

Programming Languages: Html, Css, Python django

Libraries/Frameworks: Javascript

Tools / Platforms: VS code

Databases: SQL

## PROJECTS / OPEN-SOURCE

---

### Online Vegetable Marketing

*Html ,Css ,Js and Sql*

Online Vegetable Marketing Platform Developed a web-based platform for selling fresh vegetables with product listings, cart, secure checkout, and database-driven inventory management to enhance customer convenience and vendor profits.

### Hostel Management System

*Html , Css , Sql and Python*

Hostel Management System Developed a web-based application to manage hostel operations including student registration, room allocation, fee management, and record maintenance. Implemented with HTML, CSS, JavaScript for the frontend and Python (Django) with SQL database for the backend to streamline administration and improve efficiency.

### Real-Time Public Transport Tracking

*AI tools , API , Python django*

Real-Time Public Transport Tracking System Designed and developed a web-based application to track buses and public transport in real time using GPS integration. Implemented features like live location mapping, route visualization, and estimated arrival times to improve accessibility for commuters. Built with HTML, CSS, JavaScript (Leaflet.js for maps) on the frontend and Python (Django) with SQL database on the backend.

## CERTIFICATIONS

---

- Data Analysis in Python - IBM.
- Digital Poster Presentation - College.
